Prototyping

Danny Rudd

Senior Multimedia Designer
Arlington, Texas, United States

Summary

I look to the past to gain perspective on the future of design and what advertising means. Classical design standards placed in meaningful and compassionate forms of interaction provide the greatest connection to a person and a visual identity system.

My focus as an artist is on web and interactive media.

Experience

Solenis

Senior Multimedia Designer
October 2025 - Present (6 months)
Irving, Texas, United States

I am a highly collaborative and self-motivated technology professional with over 10 years of experience in front end development, providing solutions for enterprise business partners, including Fortune 500 companies. Lead development of enterprise-level web design solutions. Work closely with I.T. and creative team to conceptualize and implement digital marketing initiatives, including CRM, web, email, and social media marketing campaigns.
